WINE COOLERS

If you love to entertain, a wine cooler is the perfect addition to any kitchen. With a range of sizes, starting from a 15cm slim design up to a large 60cm double door design we have a wine cooler to fit any storage needs.

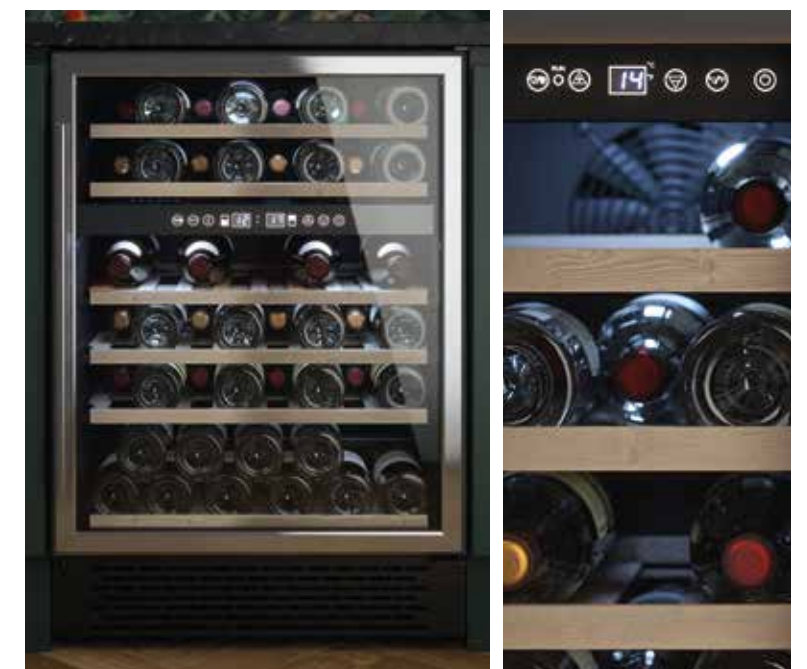

Available in black glass finish or stainless steel our sleek unbranded design wine coolers are guaranteed to match with any branded kitchen appliance and will cool your wine and keep your bottles chilled and organised.

All our wine coolers have UV protected glass to ensure no matter the outside temperature, your wine will be kept fresh and ready to drink.

The addition of internal LED lighting will help you to easily see and pick out your desired wine without opening the door.

Many of our wine cooler doors are reversible allowing you to open the door on your preferred side and come with height adjustable feet so you can tailor the height of your wine cooler to fit into your kitchen.

Our wine coolers are supplied with a British Standard 3 pin plug for easy installation.
